
TABLE OF CONTENTS

I. Manage the spectrum of recreation opportunities that exist on the Forest with an emphasis on recreation activities that require a large land area, such as hiking or hunting, and facilities to support that use.....	8
II. Manage the Spruce Knob-Seneca Rocks National Recreation Area in accordance with the Act of September 28, 1965, for multiple resource uses with an emphasis on semi-primitive recreation uses.....	13
III. Manage National Forest Wilderness in order to preserve the Wilderness attributes for which the areas were designated.....	14
IV. Manage habitat to help recovery of threatened and endangered species on the Forest. Protect sensitive species and unique species until their populations are viable. Improve the diversity of plants, animals, and stand conditions with an emphasis on the habitat needs for wild turkey, black bear, and associated species.....	16
V. Maintain open areas of National Forest land for forage, wildlife, and visual purposes.....	25
VI. Manage the vegetation on the Forest, according to sound professional procedures in order to provide a sustained yield of timber, benefit other resources, and support the local economy with concern for environmental protect and cost efficiency. Both silvicultural systems and all harvest methods will be used, however, evenaged management will predominate in order to provide long term wildlife and timber quality benefits. Long rotation ages will normally be used to achieve large tree sizes. Conifers will be managed in mixed hardwood stands where possible.....	26
VII. Provide stable supply of Forest products to dependent wood using industry. Encourage the development of secondary wood using industries in West Virginia. Encourage cable harvesting technology in the logging industry.....	27
VIII. Make minerals available for exploration and development consistent with other appropriate resource uses and protection of the environment. Emphasis will be on energy producing minerals.....	28
IX. Improve the social welfare of citizens through education, training, employment, and public safety programs.....	31
X. Improve the efficiency and effectiveness of National Forest Administration through land acquisition, exchange, or donation.....	35
XI. Manage the Forest so that it is an economically efficient unit of the National Forest system.....	36
XII. Develop and maintain a high level of open communication and understanding with the public.....	37
XIII. Cooperate with, and coordinate plans with, other Federal, State, and local agencies and with private groups to improve the management of natural resources and reduce potential conflicts.....	39
XIV. Permit use of National Forest land by others, under special use or lease authorities, that is compatible with National Forest goals and objectives and will contribute to the improved quality of life for local residents.....	45
XV. Construct and maintain a transportation system that will allow efficient management and safe public use of National Forest lands.....	47
XVI. Protect natural and cultural resources of the Forest and the health and safety of visitors from damage or degradation.....	48
